

Comprehensive processing. **Expertly engineered.**

Our advanced processing capabilities achieve sizes that few in the industry can, supporting a wide range of alloys and applications. When precision and performance matter, our expertise ensures you get the products you need to push innovation forward.

Product forms

- > Actuator wire
- > Coil
- > DFT® wire
- > Flat wire
- > Mechanical assembly
- > Precision ground bar
- > Round wire
- > Shaped wire
- > Strands and cables

Support services

- > Alloy development
- > Coating
- > Lab services
- > Laser ablation
- > Melting capabilities
- > Research and development

Material types

- > CP titanium alloys
- > High-performance alloys
- > Niobium
- > Nitinol
- > Resistance materials
- > Stainless steel
- > Tantalum
- > Titanium alloys

Certifications

- > AS9100D & ISO 9001:2015
- > A2LA - ISO/IEC 17025:2017
- > ISO 14001:2015
- > ISO 26000
